Notary Public, First Judicial Circuit

WEDNESDAY, FEB. 6, 1907.

It isn't loads of money that needs to be spent on the Los Angeles. Only tons of cordiality and good-will.

Dollar boats on a Japanese-hunting trip had such a nice time the last time they were here it is rather surprising that they come again so soon.

There will not be as much talk of war nor warlike talk as there has been. Your Uncle Samuel has decided to secure definite information on what's the matter.

If Harry Thaw is acquitted under the plea of emotional insanity, his scheme will go on record as the easiest possible way of evading responsibility for taking a human life.

The Lanai deal was made under an appraisal which doesn't take into consideration the tax valuation or what someone may have paid for the land. The notable "discoveries" in this deal serve to prove the anxiety to nag.

If they talk of Hawaii feeling patriotism on account of the large number of Japanese here, what have they to say of the gentlemen who come here to enlist Japanese for the mainland, where they are particularly not wanted?

The County education law will test the real interest which citizens will take in their public schools. In principle it follows the general scheme on which County government has been adopted—a little at a time, but always progress.

No taxpayer will object to a road-worker being paid \$1.50 a day if he earns it. The Supervisors have assumed that the workmen will earn it. We trust that they as well as the taxpayers will keep close watch to assure full value for the money.

The Republican party would make a distinct advance step and not over-reach platform promises by making the proposed Taxation Commission a non-partisan body. This would require an increase in membership but would operate to remove taxation matters from the sphere of nagging partisanship. Think it over.

Put this in your note-book: Congressmen will hesitate to visit Hawaii at the expense of private persons or business organizations. Appropriation by the representatives of the people in the Legislature is a very different matter and entirely proper.

"Of course these bills adopted by the Republican committee are not hard and fast." This is the position of the Republican legislator who sees a change he wants to make. He forgets that the other fellow will have something "wise" which he believes should be incorporated before the bill becomes law. Multiply this by the number of members of the Legislature and you have the result of party measures that are not party measures.

The Garden Island notes the fact that the returns in fines are not sufficient to cover the expense of the District Magistrate's court. Is this to be used as an argument against County control of these courts, or is the question to be decided on the basis of relative superiority of service? This idea of wanting something from the Territory or not, according to its being a money-maker or not, is about as short-sighted and puerile as the Lord allows to average humanity. There are certain departments of government naturally in the province of localities as against the Territory. These should be placed under the management of the Counties.

Reform to cover the expense of the District Magistrate's court. Is this to be used as an argument against County control of these courts, or is the question to be decided on the basis of relative superiority of service? This idea of wanting something from the Territory or not, according to its being a money-maker or not, is about as short-sighted and puerile as the Lord allows to average humanity. There are certain departments of government naturally in the province of localities as against the Territory. These should be placed under the management of the Counties.

## PROPOSED PARTY LAWS.

The Bulletin calls the especial attention of its readers to the text of the proposed acts, published in this issue, to carry out the platform promises of the Republican party. As matters covered by these bills are among the definite subjects for legislative attention, any suggestions for improvement should be made promptly.

There will be absolutely no excuse for the man who arouses himself to pompous and scurrilous objection after the laws have been passed.

It is highly important that the men working on and tentatively adopting these bills should determine how far the draft approved by the party organization makes the bill a party measure.

The meeting of Monday night was not twelve hours cold before "tentative" plans were on foot to entirely revise and thoroughly upset a "tentative" bill adopted by the organization. If this is to be the attitude of representatives of the party, this work now being done will be on a par with the glorious manner in which members of the first House Rule legislative majority marched up the hill before the Legislature was in session, and ignominiously marched down when they got down to the actual work of passing the laws.

Either these bills and the definite principles represented in each are party measures or they are not.

If the men now especially interested in them are to go to the Legislature and on one excuse or another shoot them full of holes with a volley of amendments, the work now being done will go for naught. Moreover, the party will have the additional pleasure of having made a monkey of itself.

Granted that speed is in fact the real purpose of the solid legislative majority, these bills now before the Republican organization should be presented to a Republican legislative

caucus and in their final and not radically-amended form passed, in one, two, three order.

Some may urge that this is rail-roading. It is not.

The bills are now public, and if between now and the 20th of February members of the Legislature are not able to make up their minds, they certainly will not be able to do so in the sixty days of the session with its mass of other bills requiring attention.

## THE SIZE OF US.

Various attempts made to give the property value the United States has behind it, lend interest to the official statistics of the Government.

The estimated true value of property in the continental United States was \$88,517,306,775. In 1900 and \$107,104,211,917. In 1904, according to a circular just issued by the United States Bureau of the Census, Washington, D. C. The valuation for 1904 is divided as follows: Real property and improvements (exclusive of railroads and telegraph and telephone systems, which in certain States are classed as real property), \$62,341,492,134; live stock, \$4,073,191,736; farm implements and machinery, \$844,898,863; manufacturing machinery, tools and implements, \$3,297,754,180; gold and silver coin and bullion, \$1,988,603,303; railroads and their equipment, \$11,244,752,000; street railways, shipbuilding, water works, etc. (including telegraph and telephone systems, electric light and power stations, Pullman and private cars, and canals), \$4,840,546,909; all other (including products of agriculture, manufactures and mining, imported merchandise, clothing and personal adornments, and furniture, carriage and kindred property), \$18,162,281,797; total, \$107,104,211,917. The average value of real property and improvements was \$27.60 per acre in 1900 and \$32.75 in 1904, and the corresponding per capita averages were \$691.33 and \$767.22.

## JAPAN'S DISAVOWAL.

The official statement of the Japanese Government that it has no intention of making war upon the United States goes to confirm the supposition that there was a suggestion of the Big Stick in the Navy order of a few days ago calling for fleet maneuvers in the Pacific of the warships under Admiral Brownson.

Furthermore, the Tokio Government is not likely to give out public statements of its intention unless it has been asked in very direct language, which requires a direct answer.

It is quite reasonable that the officials in Washington have decided that it is time to impress their

friends of the Japanese nation that while our Government sympathizes with them in their demand for equal recognition and will protect their treaty rights, there is no feeling of fear on the part of the American nation of the ultimate results of war, if Japan be so foolishly inclined.

The United States will go a long way around in order to avoid war. It is never prepared for war. It has never been defeated in war.

Japan, urged by Europe, and self-confident, may have mistaken the eagerness of the President to support its cause against discrimination in the San Francisco public schools as an evidence of its ability to use threatening language with impunity. If so, the diplomats made a serious error.

Our country is a nation of peace. But it will not take any bluffs. Not even from a friend.

No nation on earth "disavows" a certain policy, especially war, without it has been asked to state its case, and the request put in terms that call for "Yes" or "No."

In this instance Japan is not dealing with a China or a Russia, but with a nation that is honest in its relations with other countries, a nation whose people are second to none in patriotic support of their leaders in any crisis, a nation that does not lack for money to do with.

The latest dispatch indicates that the situation is becoming distinctly clarified.

## HONOLULU WEATHER

February 6.

Temperatures: 6 a. m., 70; 8 a. m., 75; 10 a. m., 75; noon, 77; morning minimum, 69.

Barometer, 8 a. m., 29.96; absolute humidity, 8 a. m., 7.672 grains per cubic foot; relative humidity, 8 a. m., 82 per cent; dew point, 8 a. m., 69.

Wind—6 a. m., velocity 4, direction N. E.; 8 a. m., velocity 3, direction N. E.; 10 a. m., velocity 3, direction W.; noon, velocity 3, direction S. W.

## BUCKLAND BUYS BERREY'S AGENCY

The Henry Waterhouse Trust Company completed a deal this morning whereby the Berrey Commercial Agency passes into the hands of C. R. Buckland, editor and publisher of Trans-Pacific Trade.

Mr. Buckland will continue all the departments of this agency, which include a daily official record of business transactions and the merchants' reference book. It also represents in the Territory the well-known national business agencies of Dunn and Bradstreet.

Mr. Buckland understands the business situation of the Territory and is well equipped from every standpoint to properly conduct the important work of an agency of this character.

## ALAMEDA'S BIG CARGO

The steamer Alameda left this morning at 10 o'clock for San Francisco with a very small passenger list but a full cargo. Her cabin passengers were fewer in number than on any trip for some time, this being mainly due to the fact that the Siberia sailed for the Coast only a couple of days ago and took many passengers who would otherwise have traveled on the Alameda.

The usual cargo of bananas and coffee, as well as a large amount of sugar, comprised the cargo of the Alameda and she was low in the water when she left the dock. Among the passengers on board was Alfred C. Silva, who has been in the employ of the Kosh store for many years. He is going to the Coast to pick out a line of goods with which he intends to start in business for himself as a clothing merchant.

There were 202 Japanese in the steerage.

## WAR NOT WANTED BY JAPAN

Tokio, Feb. 6.—The government has disavowed any inclination to engage in war with the United States.

## CUBA TO HAVE STANDING ARMY

Havana, Feb. 6.—Governor Magoon has issued a decree for the formation of a Cuban army with a strength of sixty thousand men.

## HEAVY SNOWFALL AT NEW YORK

New York, Feb. 6.—This district has been visited with a heavy snowstorm, which has extended throughout the New England States.

## RUSSIAN VOTERS SIGNIFY INDEPENDENCE

St. Petersburg, Feb. 6.—The returns from the election of members of the Duma indicate that the opposition will be in a majority.

## SCHOOL FOR DEAF AND DUMB

Governor Carter has in his mind the establishing of a school for the deaf and dumb and is desirous of ascertaining the number of children in these islands so unfortunately afflicted. Superintendent of Education Babbitt, in answer to the Governor's query on the subject, states that he has no statistics on that particular matter, but has referred the matter to President Pinkham of the Board of Health, who will report to the Governor as soon as he has examined the records of the board.

The plan to establish such an institution in these islands is a good one. It would be far preferable to sending the afflicted children to Coast institutions as was at one time proposed.

The man whose religion is a bluff always wants to cash in with the chips.

# TUMORS CONQUERED

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor.

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well advanced.

So called "wandering pains" may come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use. The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes:

Dear Mrs. Pinkham:—  
"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live."

Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham:—  
"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well woman. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

Dear Mrs. Pinkham:—  
"I had a tumor and Lydia E. Pinkham's Vegetable Compound removed it for me after two doctors had given me up. I was sick four years before I began to take the Compound. I now recommend Lydia E. Pinkham's Vegetable Compound far and near."

Such testimony as above is convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for Tumor (growths as well as other distressing ills of women, and such symptoms as Bearing-down, Sensations, Displacements, Irregularities and Backache, etc. Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women. Don't forget to insist upon it when some druggist asks you to accept something else which he calls "just as good."

Mrs. S. J. Barber, of Scott, N. Y., writes:

Dear Mrs. Pinkham:—  
"Sometime ago I wrote you for advice about a tumor which the doctors thought would have to be removed. Instead I took Lydia E. Pinkham's Vegetable Compound and to-day am a well woman."

Mrs. M. M. Funk, Vandergrift, Pa., writes:

Dear Mrs. Pinkham:—  
"I had a tumor and Lydia E. Pinkham's Vegetable Compound removed it for me after two doctors had given me up. I was sick four years before I began to take the Compound. I now recommend Lydia E. Pinkham's Vegetable Compound far and near."

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham, in advising. Thus she is especially well qualified to guide sick women back to health.

SENATORS LOOKING FOR MORE ROOM

Officials at the Capitol are somewhat exercised over the fact that there is no suitable room for the members of the Senate to use for deliberations at the coming session. One proposition in the dividing of Secretary Atkinson's office, placing the inner office thus made by the division at the disposal of the Governor. If such arrangements were made the robin's egg blue chamber could be used by the Senators. Such an arrangement is not desired by the majority of the Senators if it can be avoided.

The large office now used by the Department of Public Works seems to attract the "evil eye" of the Senate as the most convenient for their use, it being in close touch with the Representatives.

In the hope of stemming the rapidly increasing number of suicides, General Booth has opened an anti-suicide bureau, where sympathetic and sensible advice will be given to despairing persons.
